## Church Heating System

The Church heating system has now come to the end of its life. How it survived last winter is a miracle. The oldest units are now over 35 years old. The cost of replacement is expensive, but, and I am sure you will agree, absolutely essential. To replace the current nine units, with a like for like updated model, is **£15,600**. That's about **£1,744** a unit. This is considerably less than another quote.

I appreciate how tight finances are for all of us. But do please consider increasing your weekly offering in the second collection. The running of a Church is very expensive. Last year (2017), the ordinary costs of running the Church was just under **£144,000!**

## VINCENTIAN VOLUNTEERS

Ages 18-35

The Vincentian Fathers offer a unique experience for young people to spend a year living in a fun filled community with other young men and women and serving people living in poverty. It is a great way to spend a gap year. Highly rewarding. For more information:
